CONFIRMATION OF INFORMED CONSENT AND MEDICAL NECESSITY FOR GENETIC TESTING					
The undersigned person (or representative thereof) ensures he/she is a licensed medical professional authorized to order genetic testing and confirms that the patient has given appropriate consent. I confirm that testing is medically necessary and that test results may impact medical management for the patient. My signature applies to the release of tumor specimen from Pathology to Ambry Genetics for testing. Furthermore, all information on this TRF is true to the best of my knowledge. My signature applies to the attached letter of medical necessity (unless this box is checked <input type="checkbox"/> ).					
Signature Required for Processing Medical Professional Signature:				Date:	
INSURANCE BILLING (Include copy of both sides of insurance card)			INSTITUTIONAL BILLING		
Patient Relation to Policy Holder? <input type="checkbox"/> Self <input type="checkbox"/> Spouse <input type="checkbox"/> Child		Name and DOB of Policy Holder (if not self)		Facility Name <input type="checkbox"/> Send invoice to facility address above	
Insurance Company		Policy #	HMO Auth #	Address	
Ambry Genetics preverifies insurance coverage and will contact the patient after the patient's sample is received if the out-of-pocket amount for testing is estimated to exceed (Nothing checked defaults to >\$100): <input type="checkbox"/> \$100 <input type="checkbox"/> Any amount <input type="checkbox"/> Other \$			Contact Name		
<input type="checkbox"/> Hold order pending patient contact and approval of payment terms regarding out-of-pocket.			Phone Number		E-mail/Fax

TESTS REQUESTED			
Check to order	Test Name	Test Code	Description
<i>(Both normal sample and tumor tissue are required. Please see specimen preparation instruction sheet for more detailed specimen requirements.)</i>			
<input type="checkbox"/>	Lynch syndrome paired testing*	8982	Paired tumor and germline testing of <i>MLH1, MSH2, MSH6, PMS2, + EPCAM del/dup</i>
<input type="checkbox"/>	TumorNext- Lynch *	8980	Paired tumor and germline testing of <i>MLH1, MSH2, MSH6, PMS2, and EPCAM</i> ; microsatellite instability (MSI) and <i>MLH1</i> promoter hypermethylation analysis
<input type="checkbox"/>	TumorNext-Lynch plus ColoNext*	8981	TumorNext-Lynch (described above) plus germline analysis of 12 additional genes
<input type="checkbox"/>	TumorNext-Lynch plus OvaNext*	8983	TumorNext-Lynch (described above) plus germline analysis of 20 additional genes
<input type="checkbox"/>	TumorNext-Lynch plus CancerNext*	8984	TumorNext-Lynch (described above) plus germline analysis of 29 additional genes
<input type="checkbox"/>	Add on <i>BRAF (V600E), KRAS, and NRAS</i> targeted analysis <i>(This can only be applied to test options above.)</i>		
<input type="checkbox"/>	Microsatellite instability (MSI) analysis*	8702	
<input type="checkbox"/>	<i>MLH1</i> promoter hypermethylation analysis*	7978	
*Only colon (excluding polyps) and endometrial tumors will be accepted.			
<input type="checkbox"/>	TumorNext-BRCA**	9810	Paired tumor and germline analysis of <i>BRCA1</i> and <i>BRCA2</i>
<input type="checkbox"/>	TumorNext-HRD**	9811	Paired tumor and germline analysis of <i>BRCA1</i> and <i>BRCA2</i> plus 9 additional genes; methylation analysis of <i>BRCA1</i> and <i>RAD51C</i>
**Ovarian tumors only

Notes:	

## Tumor Specimen Forward Request - Page 3 of 3

Form is not required for processing, however, to streamline obtaining your patient's tumor specimen from Pathology, please submit this form with a copy of the completed Tumor Test Requisition Form (TRF). Otherwise, additional paperwork may be required to obtain tumor. If you would like to facilitate the submission of your patient's tumor from Pathology to Ambry, please submit this form with a copy of the TRF directly to relevant Pathology department.

I, \_\_\_\_\_ am requesting that the tissue sample for  
(ordering medical professional name)

\_\_\_\_\_, DOB: \_\_\_\_\_ be sent to Ambry Genetics for \_\_\_\_\_ testing.  
(patient name)

\_\_\_\_\_  
(ordering medical professional signature) Date: \_\_\_\_\_

### Pathology Information

Institution Name \_\_\_\_\_

Address \_\_\_\_\_ Phone \_\_\_\_\_

Once testing is complete, return specimen to Pathology at address above

Once testing is complete, return specimen to other location, please specify:

Institution Name \_\_\_\_\_

Address \_\_\_\_\_ Phone \_\_\_\_\_

### Specimens can be submitted as either:

1. Formalin fixed paraffin embedded (FFPE) tumor tissue block (preferred) or
2. Nine (9) unstained slides mounted with FFPE tissue sections cut at 10 micron thickness, unbaked and one (1) unstained slide with FFPE tissue sections cut at 5 micron thickness, unbaked

### NOTE:

- Tumor block from resection/excision specimen is preferred. Please note that small size tissue samples with tumor area <25 mm<sup>2</sup> (core biopsy specimens, colonoscopic or other endoscopic biopsy specimens), hypocellular, fibrotic, fatty, necrotic samples or samples with lower tumor cell content (<20% viable tumor cellularity) may not yield enough DNA for analysis and may require additional unstained slides. Moreover, submission of these sample types may result in requests for permission to exhaust the block or an alternate tumor tissue block to obtain sufficient DNA for testing. When choosing a block for submission, please select one with the largest tumor focus or highest tumor cellularity.
- Nucleated cells cellularity: at least 80%
- Tumor content /neoplastic cellularity: Viable tumor cell nuclei should constitute at least 20% of total number of all nucleated cells.

### Acceptable Tumor types:

- TumorNext-*Lynch*: Currently only colorectal carcinomas and endometrial carcinomas are accepted. A tumor block on which previously run DNA mismatch repair protein immunohistochemistry studies is preferred for TumorNext-*Lynch* testing.
- TumorNext-*BRCA* and *HRD*: Currently only ovarian carcinomas are accepted.

### Unacceptable specimens:

- Less than 20% viable tumor cellularity
- Specimens fixed/processed in alternative fixatives other than 10% neutral buffered formalin (e.g. Bouins, Zenker's, B5, or heavy metal fixatives)
- Decalcified specimens

**Please include a copy of Pathology report, this form, and the Ambry Tumor TRF along with the specimen. Specimens received must have at least two patient identifiers in order to avoid discrepancies. During hot weather, it is advisable to include a cooling pack with the specimen when shipping to avoid heat damage.**

For additional details regarding specimen preparation or shipping, please see the attached Specimen Preparation and Shipment Instructions. Specimens may be shipped in an Ambry specimen submission kit. These are available to order at [ambrygen.com/order-sample-kit](http://ambrygen.com/order-sample-kit) at no cost.

Please ship the specimen overnight to: Accessioning at Ambry Genetics  
7 Argonaut, Aliso Viejo, CA 92656 USA
