<small>*Blood or saliva from patients with active/recent hematological disease will undergo additional review and may not be accepted in some cases. For these, cultured fibroblasts or fresh/fresh frozen normal tissue are preferred. See <a href="http://ambrygen.com/specimen-requirements">ambrygen.com/specimen-requirements</a> for details.            **By checking this box and submitting the completed form, a saliva kit will be sent to the patient's address above. Your patient will be able to submit a saliva sample directly to Ambry for testing.            * Available for US patients only. As the patient's clinician, I am unaware of any potential for complication or difficulty in drawing blood for the listed patient(s). I understand that the phlebotomist has full authority to refuse to draw any patient if the safety of the phlebotomist and/or patient(s) are in question.</small>
